Expected Interventions On 2 Levels

Royal Society for the
Conservation of Nature

CRITICAL | **ECOSYSTEM**
PARTNERSHIP FUND

Level.1. The Mediterranean Hotspot in Jordan:

- a. Identification and assessment of the plant KBAs.***
- b. Mainstreaming plant KBAs in the national land use planning and management framework.***
- c. Developing of land use guidelines for plant KBAs.***
- d. Updating the national law enforcement Patrol Plan to include plant KBAs***
- e. Capacity building and awareness***
- f. Long term monitoring system***

Level.2. Key Biodiversity Areas (KBA`s) level

- a. Strengthening the plant component of three protected areas management plans*
- b. Developing plant conservation oriented zoning plans with focus on plant KBAs*
- c. Reviewing the boundaries of protected area buffer zones adjacent to plant KBAs*
- d. Developing a stakeholder engagement plan.*
- e. Developing a "process framework".*

Thank you
